## TAFT WOULD DESIRE PEACE

DOESN'T LIKE THE SPLIT AND  
ADVISES REPUBLICANS TO  
GET TO WORK.

## NOT FIGHTING INSURGENTS

Is Not Paying Any Attention to Votes  
Cast Against Cannon and Will  
Not Withhold Patron-  
age.

Washington, Jan. 13.—Following President Taft's advice, the republicans in congress yesterday to stop quarrelling and get down to the party legislative program as soon as possible, there was concerted evidence today to bring the warring factions together upon some basis of at least a temporary understanding. There seemed to be for the first time this session a spirit of conciliation in the air and decidedly less of the bitterness of the last few weeks.

President Taft let it be known that he still considers all of the insurgents as republicans. Speaker Cannon announced that all republicans would be invited to the caucus on naming the Ballinger-Pinchot committee next week and he hoped that all would attend. Representative Hayes of California, one of the leading insurgents, made trips to the White House today. After the first one he announced that attempts to adjust matters were under way. He then consulted with most of his brethren and reported back to the president.

President Taft declared again today that the test of republicanism will come when action is taken upon the legislative recommendations which he has made in compliance with the party platform.

In his talks with Representative Hayes and other callers today the President said he would not withhold patronage from any republican senator or member of congress because of votes cast against Speaker Cannon, against the rules of the house or against the Payne-Aldrich tariff bill.

If, however, there are any among the insurgents who intend to carry their fight against the speaker and

against the rules to the extent of opposing purely administration and party measures, to which the party is pledged, the president will no longer regard them as republicans but as having arrayed themselves with the other party. Under the circumstances, he said, he would not be justified in recognizing any claim from senators or representatives who would use the very patronage given them as ammunition against the party.

Mr. Taft is said to be satisfied with the way matters are progressing and he has received many personal assurances that most of the so-called insurgents will support the administration measures.

## SHIPS IN STORM.

Atlantic Steamers Suffer With Wild Seas.

New York, Jan. 13.—Wireless reports received here today indicate that the Atlantic steamship line is swept by severe storms.

The worst sufferer from the wild weather, so far as reported, is the Hamburg-American steamer Kaiserin Augusta Victoria, which, according to dispatches, put in a port at Plymouth with her port rail torn away for a distance of 50 feet by a wave that caught and threw down a score of passengers who were on deck.

A giant comb almost threw the ship on her beam ends, but she rose to the attack of the seas and rode out of the rest of the storm without further injury.

Another vessel in the track of the storm is the Cunard liner Lusitania, due here tonight, but reported running through heavy seas and 12 hours late. The St. Louis, of the American line, due on Wednesday evening, is two days late.

## Ice Gorge Destructive.

Lawrence, Kan., Jan. 13.—An ice gorge in the Kansas river reached Lawrence today carrying out a wagon bridge and causing several thousand dollars loss between Leocompton, eleven miles west, and Lawrence. Ice moving this way was tossed forty feet into the air. All traffic between Lawrence and North Lawrence stopped and the electric light plant shut down. The schools of North Lawrence are closed.

## Raising Bills Charge.

Muskogee, Okla., Jan. 13.—W. C. McKey was brought before the federal judge here today on a charge of raising two-dollar bills to twenties. It is alleged that he tried to pass such a bill on a merchant at Tulsa and that when he was arrested he had three such bills. McKey lives in Dallas.

## PINCHOT SAYS RULE AT STAKE

GOVERNMENT AND RESOURCES  
IN DANGER—GREAT MORAL  
ISSUE EXISTS.

## QUESTION AS TO THE RULES

Whether In or Out of Government's  
Service Ev-Forrester Will  
Stay In Fight for  
Conservation

Washington, Jan. 1.—"The conservation of natural resources and the concentration of popular government are both at stake. The one needs conservation no less than the other."

This statement epitomizes the formal statement made public tonight by Gifford Pinchot, who was recently removed as Chief of the Forest Service. The former official declared the great moral issue that now faces the country is not the loss of natural resources so much as whether special interests of the people shall rule. The statement in part is as follows:

"At this time I have no comment to make upon recent events. Whether in or out of the Government service I propose to stay in the fight for conservation and equal opportunity. Every movement and measure from whatever source that tends to advance conservation and promote government by men from human welfare, I shall try to help. Every movement and measure that hinders by money and measure, that hinders conservation and promotes government by money for profit, I shall endeavor to oppose."

Mr. Pinchot expresses his profound regret at leaving the Forest Service, out of whose work, he proceeds, grew the conservation movement.

"The great conference of Governors in the White House in May, 1908, led to the appointment of the National conservation claim, whose report gave us a new conception of the value of our natural resources," he declared.

"Together with President Roosevelt's message transmitting its report, the recommendations of the commission furnished a complete statement of the conservation policy, met our needs squarely and prescribed the remedy."

"The classification of the public domain was strongly urged and principles for its use and disposition were laid down. The necessity for preserving the fertility of our soils and developing their agricultural value by drainage and otherwise was covered, and particular attention was drawn to the needs of retaining our phosphate lands then in danger of absorption by a foreign syndicate."

Mr. Pinchot then traced the recommendations of the conference, applauding and indorsing them all, and proceeded:

"At this critical period, when the goal was in sight, enemies of conservation in Congress not only succeeded in preventing an appropriation with which to pursue the work but attempted to retard its progress by the Tawney amendment to the last sundry civil bill. Thereupon the days of the National Conservation Commission was stopped."

"The recommendation of the commission still await for action. All wise men will agree that the situation is serious. The Tawney amendment was more than a mistake—it was a deliberate betrayal of the future. The dangers which confront the conservation movement today must be met by positive action in congress. No action will be equivalent to bad action and will have the same results."

"Unless congress acts the water powers will pass into the hands of special interests without charge and without limit of time. So with the phosphate deposits on public lands, when the withdrawals which now protect them are removed. So with the enormously valuable coal deposits in Alaska, which the present law would sell for \$10 per acre."

"The danger of legislation is no less dangerous. The special interests may longer be allowed to take what

they choose in all the great property of the people—the great school public lands—or steal homes from men and women who need them. Congress can stop the pillage or congress can let it go on."

"In the absence of proper action two great conservation plans for the future welfare may fail. The first is the control of water powers on navigable streams in the public interest. The second is the construction of the deep water way from the Great Lakes to the Gulf."

"The unanimous opinion in the Mississippi Valley recognizes this waterway as a commercial necessity. It believes, with reason, that the cost which is already officially known, will be trivial when compared with the benefits conferred."

"Transportation facilities create traffic. The failure to develop our waterways, together with adequate terminals and connections by rail, leaves to the railroads a complete monopoly of transportation in the Mississippi Valley."

The former forester then calls upon "every man of good will" to make it clear to his representatives in congress his firm intention to hold personally responsible them for the safeguarding "the rights and property of the people."

"In such action," said Mr. Pinchot "lies the remedy."

"The first immediate great danger is that the water powers will be lost; the second that the coal lands will be lost," the statement concludes.

"But those specific dangers of public loss are merely parts of the great issue between the special interests and the rest of us. That issue is whether this country shall be managed by men for human welfare or by money for profit."

"It is a tremendous moral issue, far greater than many man's personal feelings or political feelings. It lies between the people and their representatives on the one side and the interests and their representatives on the other side, between special privilege and square deal. I repeat that the supreme test is the welfare of the plain people. It is time to apply it."

Government officials tonight declined to make any reply to the statement issued by Mr. Pinchot because of the lateness of the hour at which it was given out that they did not have time to examine it carefully. It is not believed, however, that any formal reply will be made to Mr. Pinchot's defense of his action, inasmuch as he no longer is an official of the government.

## "Love Me, Love My Dog."

Muskogee, Okla., Jan. 14.—Because the proprietor of the Turner hotel would not permit Mrs. Leslie Carter, the actress, to keep her pet dog in her room, she became miffed at the clerk and left the hotel. She spent the night in a second rate hotel on a side street.

## Court Is Restrained.

Jefferson City, Mo., Jan. 13.—The Missouri supreme court today issued a temporary writ of prohibition against Judge James D. Barnett of the Audrain county circuit court, prohibiting him from proceeding with the trial of a case pending in his court which attacks the legality of the reorganization of the Wabash railroad company as affected at Toledo, Ohio, October 22, 1906. The writ was issued on the ground that Judge Barnett has no jurisdiction to hear and try the case because the securities involved are not in Missouri.

## Murders Family Nurse.

Mill Brook, N. Y., Jan. 13.—A young woman known as Sarah Breymer, a nurse in the employ of Mr. and Mrs. Barnes Compton, was strangled to death in bed early today. Frank Schermerhorn, a coachman at the Compton home, to whom suspicion pointed, attempted suicide this afternoon. According to Chief McCable, Schermerhorn, after arranging things to look like a burglary, assaulted the girl, choking her to death. A quantity of silverware was missing.

### IS AN OLD LOVER'S RETREAT

Inmates of Beauvoir Home are Mar-  
rying Off.

Gulfport, Miss., Jan. 14.—The old  
guards in gray at Beauvoir, the  
Mississippi Confederate soldiers'  
home, and formerly the home of  
their chief aim, are getting too giddy  
and gay for any use. Beauvoir is  
getting to be an old lovers' retreat,  
where the bygone days are lived  
over again, and a young man's  
thoughts in springtime never turned  
half so lightly to love as to these  
battle-scarred warriors.

It was given out long before  
Christmas that there was to be a  
wedding here, but two of the shy  
young things, fearing to incur the  
displeasure of the superintendent and  
the house mother, eloped and came  
to Gulfport and were married by Rev.  
J. I. Finley. The bridegroom is 69  
years old and his bride is 67. They  
are H. H. Cravens and Mrs. Easter-  
land, a soldier's widow.

A local paper said of the couple.

"The groom is a healthy and well-  
preserved old man. He came to the  
home about two years ago from  
Leake county, Mississippi. The bride  
is also a vigorous young person,  
perfect specimen of health and hap-  
piness, and she has also been in the  
home for about two years. Craving  
came from Jones county. Mr. Crav-  
en was a married man on his en-  
trance at Beauvoir, but shortly after  
that his wife died. The present Ron-  
eo and Juliet affair has been brew-  
ing for some months, and Superin-  
tendent Mosby says that they have  
been courting much of recent weeks  
and that he foresaw the match. Be-  
fore coming to Beauvoir Mr. Cravens  
was engaged in farming."

The other youthful couple were  
Captain Robert Whitney and Mrs.  
Margaret Shappard. They were lov-  
ers before the civil war, but drifted  
apart, and after their companions  
died they were admitted to Beauvoir  
and renewed their old courtship, re-  
sulting in marriage.

### BAN ON EUCHRE PARTIES.

St. Louis Ladies Must Be Good or  
Ride the Patrol Wagon.

St. Louis, Mo., Jan. 14.—Sergt.  
John McMullen, keeper extraordinary  
of the public gambling bid, and es-  
pecially instructed to see that the  
cover is not jarred by those little  
afternoon euehres for ladies, where  
cash prizes and hand-painted china  
are doled out to the winners, is just  
now resting on the oars.

This for the reason that the dough-  
ty sergeant has been unable to find  
anything to do in his special line.  
What he has to say on the subject  
is that the patrol wagon will be  
backed up to any hall or residence  
where such games are conducted and  
the fair players given a practical dem-  
onstration of how it feels to be jolted  
over the streets in a hoodlum  
wagon. The sergeant did some in-  
vestigating Sunday, paying special  
attention to a hall at Texas Avenue  
and Cherokee street, but no game  
was found.

Sergt. McMullen announced yester-  
day that the euehre of the B'Nai Li  
Ladies' Aid Society, advertised to be  
held in the vestry rooms, Spring and  
Flad avenues, next Sunday, will be  
held at the peril of the players.

"There will be no special warn-  
ing against this euehre," said Mc-  
Mullen "but the patrol wagon will be  
there for the ladies if they persist  
in holding this game."

## THE WEST SOLIDLY AGAINST SPEAKER CANNON

CANNONISM THE REAL ISSUE IN  
THE WEST.

Champ Clark Attacks the Speaker in  
Speech at Dayton—Democrats  
United.

Dayton, O., Jan. 13.—In a speech  
here tonight, Champ Clark, minority  
house leader, attacked Speaker Can-  
non and what is known as "Cannon-  
ism." Mr. Clark declared "the tide is  
everywhere rising against Cannon-  
ism" and that the fight against the  
house rules would continue until  
crowned with complete success. Mr.  
Clark said the statement of Speaker  
Cannon that the fight against the  
house rules was simply an effort to  
prevent any tariff legislation, was un-  
true.

"Since the adjournment of con-  
gress," said Mr. Clark, "I have been  
over most of Iowa, Nebraska, Mis-  
souri, Kansas and Oklahoma, and in-  
to Colorado and South Dakota, and  
everywhere in that region Cannonism  
is the reasoning theme of every  
tongue and against it that portion  
of the country is aflame."

The speaker criticized the action  
of Senator Hale in having Speaker  
Cannon's Kansas City speech print-  
ed as a public document and at pub-  
lic expense, saying:

"Evidently the intention is to cir-  
culate it ad libitum as a piece of  
campaign literature to help elect an-  
other stand-pat house of representa-  
tives which will, in turn, re-elect Mr.  
Cannon to the speakership, for, as  
Macaulay said of Sir Robert Walpole,  
he is avaricious of power and clings  
to it with the tenacity of a snapping  
turtle and with the desperation of a  
drowning man clutching a plank in  
mid-ocean."

In conclusion Mr. Clark said:

"Certainly republicans cannot be  
described as a happy family. The  
Parsons-Cannon row, the Ballinger-  
Pinchot row, the Crane-Knox row,  
the insurgent-stand-pat row, the con-  
stantly increasing talk of the return  
from Elba, the central bank row,  
all these are merely symptoms, but  
most suggestive symptoms of the  
disease now afflicting the G. O. P.  
So, while democrats everywhere cele-  
brate the glad new year by getting  
together for an assault all along the  
line upon the common enemy, repub-  
licans present to the astonished gaze  
of men the appearance of a dissolv-  
ing view."

## ALL ENGLAND STIRRED ON THE DAY OF ELECTION

JOSEPH CHAMBERLAIN MAKES  
FINAL EFFORT.

Though Ill, He Repeats Warnings He  
Has Often Given Them of  
Situation.

London, Jan. 13.—From his Bim-  
ingham retreat on the very eve of  
the election, Joseph Chamberlain has  
made a final effort to rally his coun-  
trymen in favor of his cherished pol-  
icy, colonial preference. The inval-  
id statesman, who is unable to write  
and was obliged to dictate his state-  
ment to a secretary, has issued a  
manifesto addressed to the electors  
of the whole country. In it he reiter-  
ates the warnings which he has so  
often given to them of the gravity  
of the commercial situation.

"I address you," says Mr. Cham-  
berlain, "as Britons, as patriots, and  
I tell you that it is not well with  
British industry."

Pointing out that Great Britain is  
losing in the international race by  
her persistence in free trade, he con-  
tinues:

"This is a critical and creative  
time. You can not play fast and loose  
with your destiny."

"You have an opportunity. You will  
never have it again. Victories in pol-  
itics are like victories in war. They  
are won by enthusiasm, lost by timi-  
dity. A mistake in imperial policy  
is irretrievable."

Continuing at some length in a  
similar strain he warns the Nation  
that if the ties of sympathy binding  
the country to the children, who  
are soon to become great nations  
across the seas, should be weakened  
or destroyed, England would sink  
to a fifth-rate nation, existing on  
sufferance.

"We will not have it," he declared.  
"Let us provide against it; the rem-  
edy is at hand."

Explaining that the remedy is col-  
onial preference, Mr. Chamberlain  
concludes:

"By a commercial union we can  
pave the way for federation. I see  
constantly before me as a practical  
object of aspiration that federation  
of free nations which will enable  
us to prolong in the ages yet to  
come all the glorious traditions of  
the British race."

"Never yet in our history has the  
great democracy been unpatriotic, and  
I know that the fruition of our hopes  
is certain."

This manifest is hailed by the  
Unionist papers as a trumpet call  
to the country—one of the finest and  
most impressive things Joseph  
Chamberlain has ever done, and com-  
parable to Chatham's last speech in  
the House of Lords for dignity and  
the pathetic circumstances of its ut-  
terance from a sick bed.

### FAVOR PAYMENT NOW.

Old Osages Should Have Money While  
They Live, is the Sentiment.

Pawhuska, Okla., Jan. 14.—Most  
of the young Osages are in favor of  
the government paying to the older  
Osages all the money held for them  
in the national treasury.

They also ask that all Osages 50  
years of age be allowed to dispose of  
all their surplus lands at once, so  
the old folks can get the good of  
it, their children being satisfied with  
inheriting their homesteads which  
can't be sold for 21 years.

### FREIGHT TRAIN WRECKED.

Oil Sets Fire to Wreckage and Bridge  
and Seven Tramps Lose Lives.

Wister, Ok., Jan. 13.—West-bound  
Rock Island freight train, running  
at a rate of about thirty miles an  
hour, crashed through a 100-foot  
bridge ten miles east of Wister late  
this afternoon. The train was com-  
posed of about a dozen cars loaded  
with acids and oil, which exploded  
and set fire to the wreckage and  
bridge.

Seven tramps perished in the fire.  
Traffic is interrupted until the  
wreckage is cleared and repairs are  
made.

### Night Riders Post Notices.

Union City, Tenn., Jan. 13.—The  
Reelfoot Lake Night Riders' organi-  
zation has again become restless, ap-  
parently emboldened by the recent  
failure of a jury to render a ver-  
dict against the alleged leaders of  
the band, according to telephone mes-  
sages received today from the Ohio  
county side of the lake. Notices have  
been posted on fish docks that they  
must be vacated in six days, and  
teamsters hauling fish to this city  
from the docks have been warned  
that they must leave the county with-  
in fifteen days. The notices have oc-  
casioned considerable uneasiness and  
unrest in the lake country.

## WELL DIGGER DIGS UP GOLD NEAR ROSEDALE

VALUABLE MINERAL IN McCLELLAN  
COUNTY.

Widow's Farm Gives Up Gold Which  
Will Yield \$195 Per Ton,  
the Report.

Purcell, Okla., Jan. 13.—On the  
farm of Mrs. Albert Mitchell, a wid-  
ow near Rosedale, a well digger dug  
up a shovel full of ore containing  
indications of gold and copper. Sam-  
ples were sent to the state geologis-  
t at Norman and an assay showed that  
the ore bore gold to a considerable  
degree. It is reported that it will  
yield \$195 per ton in this mineral.

The discovery was made by J. L.  
McNiff, a miner of years experience  
in the United States and Alaska,  
whose recent researches in the Ar-  
kuckle mountains proved fruitless,  
and he took to well-digging for a  
livelihood.

Considerable excitement prevails in  
the vicinity of Rosedale, which is a  
few miles east of Purcell, and further  
development will be pushed.

### "POGENIP" NEW DISEASE.

Comes From Inhaling Fog Congealed  
Into Spicula of Ice.

Pittsburg, Pa., Jan. 14.—Harry Pen-  
ny Witt, the weather forecaster here,  
not only dispenses forecasts, but ac-  
companies them with health hints.  
He came out today with a new and  
rather startling one to the effect that  
Pittsburg air was supercharged with  
"pogenip" and he urged that people  
outdoors should hang over their  
mouths and nostrils a little apron of  
cheese cloth.

"Pogenip," he explained "is In-  
dian for white death, and is caused  
by inhaling fog which has congealed  
into spicula of ice."

He first learned of the disease  
when stationed on the Utah and Ne-  
vada plateaus, where the Indians  
dread it. It develops a form of pneu-  
monia, which is usually fatal. To-

### NO ROWDIES ON FORCE.

Mayor Gaynor Evinces His Theory  
of "Personal Liberty."

New York, Jan. 11.—Mayor Gay-  
nor made plain today that the type  
of police officer commonly known as  
"slugger" would receive scant con-  
sideration under his administration.  
In a letter to Police Commissioner  
Baker he asked that official to see  
that there was no delay in bringing  
to trial a policeman recently accus-  
ed of getting drunk and clubbing  
unoffending persons whom he en-  
countered on the street.

"The quicker men capable of such  
things be got off the force the force  
the better," was the way the mayor  
put it.

Representative Samuel W. Smith of Michigan, chairman of the district of Columbia, today appointed a subcommittee to take up the work. Representative J. Hampton Moore of Pennsylvania is the chairman of subcommittee, and he has five others to help him. The hearings will begin next Monday. "The inquiry will not stop," said Mr. Moore today, "until we have complete details and definite information on which we can base intelligent and remedial recommendations."

PASSES FORTIFICATION BILL

House Approves Measure Carrying \$5,617,200 in Appropriations.

Washington, Jan. 13.—The House today passed the fortifications appropriation bill carrying \$5,617,200. The Senate, while it spent no money, put in more than two hours in discussion as to whether it should allow about \$4,000,000 worth of claims for additional salaries to certain postmasters who served during the decade from 1864 to 1874. Senator Penrose attacked the proposition as the work of claim agents.

Considerable partisan feeling was injected in a discussion in the House over the destruction of about 10,000 tons of old worthless documents. In them were messages to Congress from both Republican and Democratic Presidents.

Refused to Honor Requisition.

Shawnee, Ok., Jan. 13.—Deputy Sheriff John Dutton has returned from Indianapolis, Ind., where he went armed with a requisition from Gov. Haskell for James T. Shipp, wanted in this county on a charge of disposing of mortgaged property. He came back without his man, however, because Gov. Marshall refused to honor the requisition of the Oklahoma governor. The reason given is said to be that the governor held that the charge was not sufficiently serious to justify the delivery of the prisoner.

NEW YORK HOUSECLEANING.

List of City Employees is To Be Trimmed Considerably.

New York, Jan. 12.—The house cleaning work begun by Mayor Gaynor on New Year's Day is spreading rapidly through the various departments of the city government. Comptroller Prendergast, who has about 800 city employees on his payroll announces that he will give the finance department a thorough shaking up this week, reducing the number of employees by more than 300.

When the Comptroller reached his office this morning the resignations of all but one or two heads of bureaus and divisions were in his desk and the plans for filling their places was well advanced. The comptroller has also appointed a special committee to outline a plan of reorganization of the work and improving business methods of his office.

TOWN SWEEP BY FIRE.

Twenty Buildings in Ashes With a Loss of \$75,000.00.

Bristol, Tenn., Jan. 13.—Elk Park, a town of 1,200 in Mitchell County, N. C., was swept by fire this afternoon. Twenty buildings in the center of the town are in ashes with a loss of about \$75,000.

The burned buildings, all frame, include a bank, the railway station, a number of stores and several dwellings. Elk Park is without any fire protection and for a while the entire town was threatened with destruction. With apparatus sent from Johnson City, Tenn., on a special train the flames were finally brought under control.

There was comparative little insurance on the destroyed property.

MASQUERADED AS A MAN.

Woman Played Deck Hand on Lumber Barges 35 Years.

Montreal, Que., Jan. 14.—The warden of the jail has discovered that a person committed last week under the name of William Dubers, 65 years old, is a woman. She admitted having masqueraded as a man for 35 years, most of the time gaining her living as a deck hand on lumber barges. William is now in the infirmary of the jail, wearing a skirt, which she finds most awkward.

Respite for John Black.

Holdenville, Ok., Jan. 13.—John Black, a negro, convicted of the murder of J. P. Stephens, will not hang tomorrow, although the ring of the carpenter's hammer has been heard throughout the day in the construction of the scaffold. Everything was ready and Sheriff King was on his way to the penitentiary to bring the condemned man, when the criminal court granted a stay pending an appeal. Black is the negro whom the officers twice spirited away from a mob.

EFFORT TO BREAK WILL.

Millionaire Failed to Give His Sister What She Wanted.

St. Louis, Jan. 12.—The charge that the late Louis F. Ewald, millionaire ironmaster, made his will under the influence of Ellen J. Golden, who induced him to leave the bulk of his fortune to her children, is made in a suit filed yesterday by Mrs. Rosa E. Damon, sister of Ewald, who was cut off with \$15,000. Ewald left \$2,134,000 cash.

Mrs. Damon asks that her brother's will, which was probated both in St. Louis and Louisville, Ky., be set aside and the instruments by which he adopted Mrs. Golden's children declared invalid. Ewald was a native of St. Louis but died in Louisville.

FIREMEN RESCUE A PARROT

Hear Screams from Burning Building, Rush in to Save Woman.

New York, Jan. 14.—Two firemen who heard screams coming from the upper floor of a burning Brooklyn tenement risked their lives in a dash through the flames, believing that a woman was perishing. Singed and wellnigh over come from smoke, they reached the top floor to find that the cries came from a big, green parrot in a wire cage. By this time escape down the staircase was cut off and the Polly was taken down the long fire ladders to the ground.

DISPEL FOGS HIS HOBBY.

Theory Caused Unhappiness for St. Louisan, Who Fatally Shoots Self.

S. Louis, Mo., Jan. 13.—Jesse H. Tourville, who recently wrote to the common council of London on a method to dispel the fogs by physics waves, shot himself today at Seventh and Olive streets, the busiest corner in St. Louis. He probably will die.

Tourville's claims of phisic power were one of the causes of the estrangement of his young wife. It was his belief that unseen power forces worked to create strife in his family. He maintained he could lift the pall of smoke from St. Louis by the same forces he would use in lifting the London fog.

Tourville's shooting of himself was spectacular. Scores of persons saw him draw a revolver from his pocket and press it to his abdomen and fire.

LAWYER ROASTS PRINCESS.

Calls Action of Louise Against Baroness Vaughn Undignified.

Paris, Jan. 13.—The appeal of the Baroness Vaughan from that part of the decision of December 22 in which the court ordered an inventory of her property at Balincourt was heard today. Decision was reserved for one week.

In the course of his pleading the attorney for the baroness severely criticised the action of Princess Louise in tying up the appellant's property in Belgium and France, pointing out that her sisters, Clementine and Stephanie, had refused to join in the undignified proceedings of "discussing the extent of their father's liberality towards the baroness."

INDIANAPOLIS IS KEPT "DRY"

Indianapolis, Ind., Jan. 14.—Sunday was dry in Indianapolis for the first time in years. The new mayor, Samuel Lewis Shank, gave the police department an order to enforce the liquor laws. Seventeen saloonkeepers in the outlying neighborhoods tried to do business and were arrested.

REAL ESTATE and FIRE INSURANCE

Advice

We have recently established in the News Building a REAL ESTATE, INSURANCE and LOAN AGENCY and active and constant attention will be given to all business entrusted to our care. We propose to line up our agency along with the growth and advancement of the city, and we want to make your business acquaintance.

Real Estate

We make a specialty of PUSHING property listed with our agency. We do not make a note of it on a memorandum, and forget it, but use printers ink to promote its early and sure sale. It pays to advertise. We preach that sort of doctrine and practice it as well. Property listed with us will be advertised, and if there is anything doing at all in the real estate transfers we are busy too. We have at the present date some pretty bargains in Ada stuff which you may see advertised in another column of this issue of the News. If you want to sell list with us today.

Insurance

The WEAVER FIRE INSURANCE AGENCY was the first established in Ada, and during these nearly 10 years every claim has been promptly adjusted, to the entire satisfaction of the policy holder. This is not a bad record. This is true because only the best and strongest companies have been represented. Among these are: The Royal, New York Underwriters, the Niagara, and the Phenix. These are as strong as the Rock of Gibraltar. PROMPTNESS is the watch-word. You can make no mistake by selecting any of these to carry your risk.

Loans

We are at present arranging to represent leading loan companies, and expect to be prepared at an early date to take care of applications for loans on city or farm property

## TAFT WOULD DESIRE PEACE

DOESN'T LIKE THE SPLIT AND  
ADVISES REPUBLICANS TO  
GET TO WORK.

## NOT FIGHTING INSURGENTS

Is Not Paying Any Attention to Votes

Cost Against Cannon and Will

Not Withhold Patron-

age.

Washington, Jan. 13.—Following President Taft's advice, the republicans in congress yesterday stopped quarrelling and got down to the party legislative program as soon as possible, there was concerted evidence today to bring the warring factions together upon some basis of at least a temporary understanding. There seemed to be for the first time this session a spirit of conciliation in the air and decidedly less of the bitterness of the last few weeks.

President Taft let it be known that he still considers all of the insurgents as republicans. Speaker Cannon announced that all republicans would be invited to the caucus on naming the Ballinger-Pinchot committee next week and he hoped that all would attend. Representative Hayes of California, one of the leading insurgents, made trips to the White House today. After the first one he announced that attempts to adjust matters were under way. He then consulted with most of his brethren and reported back to the president.

President Taft declared again today that the test of republicanism will come when action is taken upon the legislative recommendations which he has made in compliance with the party platform.

In his talks with Representative Hayes and other callers today the President said he would not withhold patronage from any republican senator or member of congress because of votes cast against Speaker Cannon, against the rules of the house or against the Payne-Aldrich tariff act.

If, however, there are any among the insurgents who intend to carry their fight against the speaker and

against the rules to the extent of opposing purely administration and party measures, to which the party is pledged, the president will no longer regard them as republicans but as having arrayed themselves with the other party. Under the circumstances, he said, he would not be justified in recognizing any claim from senators or representatives who would use the very patronage given them as ammunition against the party.

Mr. Taft is said to be satisfied with the way matters are progressing and he has received many personal assurances that most of the so-called insurgents will support the administration measures.

## SHIPS IN STORM.

Atlantic Steamers Suffer With Wild Seas.

New York, Jan. 13.—Wireless reports received here today indicate that the Atlantic steamship line is swept by severe storms.

The worst sufferer from the wild weather, so far as reported, is the Hamburg-American steamer Kaiserin Augusta Victoria, which, according to dispatches, put into port at Plymouth with her port rail torn away for a distance of 50 feet by a wave that caught and threw down a score of passengers who were on deck.

A giant combing almost threw the ship on her beam ends, but she rose to the attack of the seas and rode out of the rest of the storm without further injury.

Another vessel in the track of the storm is the Cunard liner Lusitania, due here tonight, but reported running through heavy seas and 12 hours late. The St. Louis, of the American line, due on Wednesday evening, is two days late.

## Ice Gorge Destructive.

Lawrence, Kan., Jan. 13.—An ice gorge in the Kansas river reached Lawrence today carrying out a wagon bridge and causing several thousand dollars loss between Leocompton, eleven miles west, and Lawrence. Ice moving this way was tossed forty feet into the air. All traffic between Lawrence and North Lawrence stopped and the electric light plant shut down. The schools of North Lawrence are closed.

## Raising Bills Charge.

Muskogee, Okla., Jan. 13.—W. C. McKee was brought before the federal judge here today on a charge of raising two-dollar bills to twenties. It is alleged that he tried to pass such a bill on a merchant at Tulsa and that when he was arrested he had three such bills. McKee lives in Dallas.

## PINCHOT SAYS RULE AT STAKE

GOVERNMENT AND RESOURCES  
IN DANGER—GREAT MORAL  
ISSUE EXISTS.

## QUESTION AS TO THE RULES

Whether In or Out of Government's

Service Ex-Forester Will

Stay In Fight for

Conservation

Washington, Jan. 1.—"The conservation of natural resources and the concentration of popular government are both at stake. The one needs conservation no less than the other."

This statement epitomizes the formal statement made public tonight by Gifford Pinchot, who was recently removed as Chief of the Forest Service. The former official declared the great moral issue that now faces the country is not the loss of natural resources so much as whether special interests of the people shall rule. The statement in part is as follows:

"At this time I have no comment to make upon recent events. Whether in or out of the Government service I propose to stay in the fight for conservation and equal opportunity. Every movement and measure from whatever source that tends to advance conservation and promote government by men from human welfare, I shall try to help. Every movement and measure that hinders by money and measure, that hinders conservation and promotes government by money for profit, I shall endeavor to oppose."

Mr. Pinchot expresses his profound regret at leaving the Forest Service, out of whose work, he proceeds, grew the conservation movement.

"The great conference of Governors in the White House in May, 1908, led to the appointment of the National conservation commission, whose report gave us a new conception of the value of our natural resources," he declared.

"Together with President Roosevelt's message transmitting its report, the recommendations of the commission furnished a complete statement of the conservation policy, met our needs squarely and prescribed the remedy."

"The classification of the public domain was strongly urged and principles for its use and disposition were laid down. The necessity for preserving the fertility of our soils and developing their agricultural value by drainage and otherwise was covered, and particular attention was drawn to the needs of retarding our phosphate lands then in danger of absorption by a foreign syndicate."

Mr. Pinchot then traced the recommendations of the conference, applauding and indorsing them all, and proceeded:

"At this critical period, when the goal was in sight, enemies of conservation in Congress not only succeeded in preventing an appropriation which would have retarded its progress but attempted to retard its progress by the Tawney amendment to the last sundry civil bill. Thereupon the days of the National Conservation Commission was stopped."

"The recommendation of the commission still await for action. All wise men will agree that the situation is serious. The Tawney amendment was more than a mistake—it was a deliberate betrayal of the future. The dangers which confront the conservation movement today must be met by positive action in congress. No action will be equivalent to bad action and will have the same results."

"Unless congress acts the water powers will pass into the hands of special interests without charge and without limit of time. So with the phosphate deposits on public lands, when the withdrawals which now protect them are removed. So with the enormously valuable coal deposits in Alaska, which the present law would sell for \$10 per acre."

"The danger of legislation is no less dangerous. The special interests may longer be allowed to take what

they choose in all the great property of the people—the great school public lands—or steal homes from men and women who need them. Congress can stop the pillage or congress can let it go on."

"In the absence of proper action two great conservation plans for the future welfare may fall. The first is the control of water powers on navigable streams in the public interest."

The second is the construction of the deep water way from the Great Lakes to the Gulf.

"The unanimous opinion in the Mississippi Valley recognizes this waterway as a commercial necessity. It believes, with reason, that the cost which is already officially known, will be trivial when compared with the benefits conferred."

"Transportation facilities create traffic. The failure to develop our waterways, together with adequate terminals and connections by rail, leaves to the railroads a complete monopoly of transportation in the Mississippi Valley."

The former forester then calls upon "every man of good will" to make it clear to his representatives in congress his firm intention to hold personally responsible them for the safeguarding "the rights and property of the people."

"In such action," said Mr. Pinchot, "lies the remedy."

"The first immediate great danger is that the water powers will be lost; the second that the coal lands will be lost," the statement concludes.

"But those specific dangers of public loss are merely parts of the great issue between the special interests and the rest of us. That issue is whether this country shall be managed by men for human welfare or by money for profit."

"It is a tremendous moral issue, far greater than many man's personal feelings or political feelings. It lies between the people and their representatives on the one side and the interests and their representatives on the other side, between special privilege and square deal. I repeat that the supreme test is the welfare of the plain people. It is time to apply it."

Government officials tonight declined to make any reply to the statement issued by Mr. Pinchot because of the lateness of the hour at which it was given out that they did not have time to examine it carefully. It is not believed, however, that any formal reply will be made to Mr. Pinchot's defense of his action, inasmuch as he no longer is an official of the government.

## "Love Me, Love My Dog."

Muskogee, Okla., Jan. 14.—Because the proprietor of the Turner hotel would not permit Mrs. Leslie Carter, the actress, to keep her pet dog in her room, she became miffed at the clerk and left the hotel. She spent the night in a second rate hotel on a side street.

## Court Is Restrained.

Jefferson City, Mo., Jan. 13.—The Missouri supreme court today issued a temporary writ of prohibition against Judge James D. Barnett of the Audrain county circuit court, prohibiting him from proceeding with the trial of a case pending in his court which attacks the legality of the reorganization of the Wabash railroad company as affected at Toledo, Ohio, October 27, 1906. The writ was issued on the ground that Judge Barnett has no jurisdiction to hear and try the case because the securities involved are not in Missouri.

## Favors Stated for Both.

Washington, Jan. 13.—The New Mexico and Arizona statehood bill was completed today by the House Committee on Territories and ordered reported.

## Murders Family Nurse.

Mill Brook, N. Y., Jan. 13.—A young woman known as Sarah Breymer, a nurse in the employ of Mr. and Mrs. Farmer Compton, was strangled to death in bed early today. Frank Schermerhorn, a coachman at the Compton home, to whom suspicion pointed, attempted suicide this afternoon. According to Chief McCabe, Schermerhorn, after arranging things to look like a burglary, assaulted the girl, choking her to death. A quantity of silverware was missing.

## Militia to Withdraw.

Vienna, Ill., Jan. 13.—The militia companies ordered here Tuesday night to guard three negroes charged with murder, are awaiting orders for departure. No outbreak by mobs from Harrisburg the home of Allen Clark, the slain man, is expected.

### IS AN OLD LOVER'S RETREAT

Inmates of Beauvoir Home are Mur-  
dering OR.

Gulfport, Miss., Jan. 14.—The old  
guards in gray at Beauvoir, the  
Mississippi, Confederate soldiers'  
home, and formerly the home of  
their chief ain, are getting too giddy  
and gay for any use. Beauvoir is  
getting to be an old lovers' retreat,  
where the bygone days are lived  
over again, and a young man's  
thoughts in springtime never turned  
half so lightly to love as to these  
battle-scarred warriors.

It was given on long before  
Christmas that there was to be a  
wedding there, but two of the shy  
young things, fearing to incur the  
displeasure of the superintendent and  
the house mother, eloped and came  
to Gulfport and were married by Rev.  
J. I. Finley. The bridegroom is 69  
years old and his wife is 67. They  
are H. H. Cravens and Mrs. East-  
land, a soldier's widow.

A local paper said of the couple.

"The groom is a healthy and well-  
preserved old man. He came to the  
home about two years ago from  
Leake county, Mississippi. The bride  
is also a vigorous young person,  
perfect specimen of health and hap-  
piness, and she has also been in the  
home for about two years. Craving  
came from Jones county Mr. Craven  
was a married man on his en-  
trance at Beauvoir. But shortly after  
that his wife died. The present Rose-  
and Juliet affair has been brewing  
for some months, and Superin-  
tendent Mosby says that they have  
been courting much of recent weeks  
and that he foresaw he match De-  
fore coming to Beauvoir. Mr. Cravens  
was engaged in farming."

The other youthful couple were  
Captain Robert Whitney and Mrs.  
Margaret Shappard. They were lov-  
ers before the civil war, but drifted  
apart, and after their companions  
died they were admitted to Beauvoir  
and renewed their old courtship, re-  
sulting in marriage.

### BAN ON EUCHRE PARTIES.

St. Louis Ladies Must Be Good or  
Ride the Patrol Wagon.

St. Louis, Mo., Jan. 11.—Sergt.  
John McMullen, keeper ex reordinary  
of the public gambling hall, and es-  
pecially instructed to see that the  
cover is not jarred or those little  
afternoon euchre for ladies, where  
cash prizes and hand-painted china  
are doled out to the winners, is just  
now resting on the oars.

This for the reason that the doughty  
sergeant has been unable to find  
anything to do in his special line.  
What he has to say on the subject  
is that the patrol wagon will be  
backed up to any hall or residence  
where such games are conducted and  
the fair players given a practical de-  
monstration of how it feels to be  
jammed over the streets in a hoodlum  
wagon. The sergeant did some in-  
vestigating Sunday, paying special  
attention to a hall at Texas Avenue  
and Cherokee street, but no game  
was found.

Sergt. McMullen announced yester-  
day that the euchre of the B'Nai B'r  
Ladies' Aid Society, advertised to be  
held in the vestry rooms, Spring and  
Flad avenues, next Sunday, will be  
held at the peril of the players.

"There will be no special warn-  
ing against this euchre," said Mc-  
Mullen "but the patrol wagon will be  
there for the ladies if they persist  
in holding this game."

## THE WEST SOLIDLY AGAINST SPEAKER CANNON

CANNONISM THE REAL ISSUE IN  
THE WEST.

Champ Clark Attacks the Speaker in  
Speech at Dayton—Democrats  
United.

Dayton, O., Jan. 13.—In a speech  
here tonight, Champ Clark, minority  
house leader, attacked Speaker Can-  
non and what is known as "Cannon-  
ism." Mr. Clark declared "the tide is  
everywhere rising against Cannon-  
ism" and that the fight against the  
house rules would continue until  
crowned with complete success. Mr.  
Clark said the statement of Speak-  
er Cannon that the fight against the  
house rules was simply an effort to  
prevent any tariff legislation, was un-  
true.

"Since the adjournment of con-  
gress," said Mr. Clark, "I have been  
over mos. of Iowa, Nebraska, Mis-  
souri, Kansas and Oklahoma, and in-  
to Colorado and South Dakota, and  
everywhere in that region Cannonism  
is the resounding theme of every  
tongue and against it that portion  
of the country is aflame."

The speaker criticized the action  
of Senator Hale in having Speaker  
Cannon's Kansas City speech printed  
as a public document and at pub-  
lic expense, saying:  
"Evidently the intention is to cir-  
culate it ad libitum as a piece of  
campaign literature to help elect an-  
other stand-pat house of representa-  
tives which will, in turn, re-elect Mr.  
Cannon to the speakership, for, as  
Macaulay said of Sir Robert Walpole,  
he is avaricious of power and clings  
to it with the tenacity of a snapping  
turtle and with the desperation of a  
drowning man clutching a plank in  
mid-ocean."

In conclusion Mr. Clark said:

"Certainly republicans cannot be  
described as a happy family. The  
Parsons-Cannon row, the Ballinger-  
Pinchot row, the Crane-Knox row,  
the insurgent-stand-pat row, the con-  
stantly increasing talk of the return  
from Mr. A. the central bank row,  
all these are warlike symptoms, but  
most suggestive symptoms of the  
disease now afflicting the G. O. P.  
So, while democrats everywhere cele-  
brate the glad new year by getting  
together for an assault all along the  
line upon the common enemy, repub-  
licans present to the astonished gaze  
of men the appearance of a dissolv-  
ing view."

## ALL ENGLAND STIRRED ON THE DAY OF ELECTION

JOSEPH CHAMBERLAIN MAKES  
FINAL EFFORT.

Though Ill, He Repeats Warnings He  
Has Often Given Them of  
Situation.

London, Jan. 13.—From his Bim-  
ingham retreat on the very eve of  
the election, Joseph Chamberlain has  
made a final effort to rally his coun-  
try men in favor of his cherished pol-  
icy, colonial preference. The inval-  
id statesman, who is unable to write  
and was obliged to dictate his state-  
ment to a secretary, has issued a  
manifesto addressed to the electors  
of the whole country. In it he reiter-  
ates the warnings which he has so  
often given to them of the gravity  
of the commercial situation.

"I address you," says Mr. Cham-  
berlain, "as Britons, as patriots, and  
I tell you that it is not well with  
British industry."

Pointing out that Great Britain is  
losing in the international race by  
her persistence in free trade, he con-  
tinues:

"This is a critical and creative  
time. You can not play fast and loose  
with your destiny.

"You have an opportunity. You will  
never have it again. Victories in pol-  
itics are like victories in war. They  
are won by enthusiasm, lost by timi-  
dity. A mistake in Imperial policy  
is irretrievable."

Continuing at some length in a  
similar strain he warns the Nation  
that if the ties of sympathy binding  
the country to the children, who  
are soon to become great nations  
across the seas, should be weakened  
or destroyed, England would sink  
to a fifth-rate nation, existing on  
sufferance.

"We will not have it," he declared.  
"Let us provide against it; the rem-  
edy is at hand."

Explaining that the remedy is col-  
onial preference, Mr. Chamberlain  
concludes:

"By a commercial union we can  
pave the way for federation. I see  
constantly before me as a practical  
object of aspiration that federation  
of free nations which will enable  
us to prolong in the ages yet to  
come all the glorious traditions of  
the British race."

"Never yet in our history has the  
great democracy been unpatriotic, and  
I know that the fruition of our hopes  
is certain."

This manifesto is hailed by the  
Unionist papers as a trumpet call  
to the country—one of the finest and  
most impressive things Joseph  
Chamberlain has ever done, and com-  
parable to Chatham's last speech in  
the House of Lords for dignity and  
the pathetic circumstances of its ut-  
terance from a sick bed.

### FAVOR PAYMENT NOW.

Old Osages Should Have Money While  
They Live, is the Sentiment.

Pawhuska, Okla., Jan. 14.—Most of  
the young Osages are in favor of the  
government paying to the older  
Osages all the money held for them  
in the national treasury.

They also ask that all Osages 20  
years of age be allowed to dispose of  
all their surplus lands at once, so  
the old folks can get the good of  
it, their children being satisfied with  
inheriting their homesteads which  
can't be sold for 21 years.

### FREIGHT TRAIN WRECKED.

Oil Sets Fire to Wreckage and Bridge  
and Seven Tramps Lose Lives.

Rock Island freight train, running  
at a rate of about thirty miles an  
hour, crashed through a 100-foot  
bridge ten miles east of Wister late  
this afternoon. The train was com-  
posed of about a dozen cars loaded  
with acids and oil, which exploded  
and set fire to the wreckage and  
bridge.

Seven tramps perished in the fire.  
Traffic is interrupted until the  
wreckage is cleared and repairs are  
made.

### Night Riders Post Notices.

Culon City, Tenn., Jan. 13.—The  
Reelfoot Lake Night Riders' organiza-  
tion has again become restless, ap-  
parently emboldened by the recent  
failure of a jury to render a ver-  
dict against the alleged leaders of  
the band, according to telephone mes-  
sages received today from the Obion  
county side of the lake. Notices have  
been posted on fish docks that they  
must be vacated in six days, and  
teamsters hauling fish to this city  
from the docks have been warned  
that they must leave the county with-  
in fifteen days. The notices have oc-  
casioned considerable uneasiness and  
unrest in the lake country.

## WELL DIGGER DIGS UP GOLD NEAR ROSEDALE

VALUABLE MINERAL IN McCLELLAN  
COUNTY.

Widow's Farm Gives Up Gold Which  
Will Yield \$195 Per Ton,  
the Report.

Purcell, Okla., Jan. 13.—On the  
farm of Mrs. Albert Mitchell, a wid-  
ow near Rosedale, a well digger dug  
up a shovel full of ore containing  
indications of gold and copper. Sam-  
ples were sent to the state geologis-  
t at Norman and an assay showed that  
the ore bore gold to a considerable  
degree. It is reported that it will  
yield \$125 per ton in this mineral.

The discovery was made by J. L.  
Whitely, a miner of years experience  
in the United States and Alaska,  
whose recent researches in the Ar-  
kuckle mountains proved fruitless,  
and he took to well-digging for a  
livelihood.

Considerable excitement prevails in  
the vicinity of Rosedale, which is a  
few miles east of Purcell, and further  
development will be pushed.

### This Is Ada.

In the State of Oklahoma,  
County of Ponotoc;  
There's a town whose name is Ada,  
Built upon solid rock.

Her walks are made of best cement,  
That's ground in any state.  
Streets are being paved to prevent  
Mud and dust that's so grate.

Schools of learning good as any,  
State Normal is the best;  
Churches, lodges, there are many,  
Strangers treated as guests.

Her buildings are of modern style,  
Of architecture grand;  
They stand upright, are seen for  
miles,  
Like those not made by hand.

Her property is not for sale—  
Well, it is on these grounds—  
Pay its cash, draft or check by mail  
And secure lot in town.

North side, South side, Capital Hill,  
Donaghey addition;  
Portland Park Square and Sunrise

### "POGENIP" NEW DISEASE.

Comes From Inhaling Fog Congealed  
From Splenda of Ice.

Pittsburg, Pa., Jan. 14.—Harry Pen-  
ney Watt, the weather forecaster here,  
not only dispenses forecasts, but ac-  
companies them with health hints.  
He came out today with a new and  
rather a startling one to the effect that  
Pittsburg air was supercharged with  
"pogenip" and the urged that people  
outdoors should hang over their  
mouths and nostrils a little apron of  
cheese cloth.

"Pogenip," he explained "is In-  
dian for white death, and is caused  
by inhaling fog which has congealed  
into splenda of ice."

He first learned of the disease  
when stationed on the Utah and Ne-  
vada plateaus, where the Indians  
dread it. It develops a form of pneu-  
monia, which is usually fatal. To-  
day was the first announcement of  
the new plague in Pittsburg.

### NO ROWDIES ON FORCE.

Mayor Gaynor Evidence His Theory  
of "Personal Liberty."

New York, Jan. 11.—Mayor Gay-  
nor made plain today that the type  
of police officer commonly known as  
"slugger" would receive scant con-  
sideration under his administration.  
In a letter to Police Commissioner  
Baker he asked that officials be in-  
structed that there was no delay in bring-  
ing to trial a policeman recently ac-  
cused of getting drunk and clubbing  
unoffending persons whom he en-  
countered on the street.

"The quicker men capable of such  
things get off the force the force  
the better," was the way the mayor  
put it.

### ELEVATOR BOY KILLED

Hotel in Tulsa.

Tulsa, Okla., Jan. 13.—This after-  
noon the elevator in the Robinson  
Hotel fell from the fifth story to the  
basement, after becoming uncontroll-  
able and dashing through the ceiling,  
fatally injuring E. G. Perry,  
elevator boy, who was buried under  
the wreckage of the car. There were  
no passengers in the elevator at the  
time.

**District of Columbia Committee Will Take Action in Question.**  
Washington, Jan. 13.—High prices for the necessities of Washington have caused the committee on the district of Columbia of the House of Representatives to take action and the committee is going to investigate the subject at once.  
Representative Samuel W. Smith of Michigan, chairman of the district of Columbia, today appointed a subcommittee to take up the work. Representative J. Hampton Moore of Pennsylvania is the chairman of subcommittee, and he has five others to help him. The hearings will begin next Monday. "The inquiry will not stop," said Mr. Moore today, "until we have complete details and definite information on which we can base intelligent and remedial recommendations."

**PASSES FORTIFICATION BILL**  
House Approves Measure Carrying \$5,617,200 in Appropriations.  
Washington, Jan. 13.—The House today passed the fortifications appropriation bill carrying \$5,617,200. The Senate, while it spent no money, put in more than two hours in discussion as to whether it should allow about \$4,000,000 worth of claims for additional salaries to certain postmasters who served during the decade from 1864 to 1874. Senator Penrose attacked the proposition as the work of claim agents.  
Considerable partisan feeling was injected in a discussion in the House over the destruction of about 10,000 tons of old worthless documents. In them were messages to Congress from both Republican and Democratic Presidents.

**Refused to Honor Requisition.**  
Shawnee, Ok., Jan. 13.—Deputy Sheriff John Dutton has returned from Indianapolis, Ind., where he went armed with a requisition from Gov. Haskell for James T. Shipp, wanted in this county on a charge of disposing of mortgaged property. He came back without his man, however, because Gov. Marshall refused to honor the requisition of the Oklahoma governor. The reason given is said to be that the governor held that the charge was not sufficient to justify the delivery of the prisoner.

**Wetumka Bond Election.**  
Wetumka, Ok., Jan. 13.—Special election held in Wetumka today to vote \$36,000 bonds for the purpose of constructing a system of waterworks to be owned exclusively by the town said bonds having carried by an overwhelming majority, with only sixteen dissenting votes.

**NEW YORK HOUSECLEANING.**  
List of City Employees is To Be Trimmed Considerably.  
New York, Jan. 12.—The house cleaning work begun by Mayor Gaynor on New Year's Day is spreading rapidly through the various departments of the city government. Comptroller Frendergast, who has about 800 city employees on his payroll announces that he will give the finance department a thorough shaking up this week, reducing the number of employees by more than 300.  
When the Comptroller reached his office this morning the resignations of all but one or two heads of bureaus and divisions were in his desk and the plans for filling their places was well advanced. The comptroller has also appointed a special committee to outline a plan of reorganization of the work and improving business methods of his office.

**TOWN SWEEP BY FIRE.**  
Twenty Buildings in Ashes With a Loss of \$75,000.  
Bristol, Tenn., Jan. 13.—Elk Park, a town of 1,200 in Mitchell County, N. C., was swept by fire this afternoon. Twenty buildings in the center of the town are in ashes with a loss of about \$75,000.  
The burned buildings, all frame, include a bank, the railway station, a number of stores and several dwellings. Elk Park is without any fire protection and for a while the entire town was threatened with destruction. With apparatus sent from Johnson City, Tenn., on a special train the flames were finally brought under control.  
There was comparative little insurance on the destroyed property.

**MASQUERADED AS A MAN.**  
Woman Played Deck Hand on Lumber Barges 35 Years.  
Montreal, Que., Jan. 14.—The warden of the jail has discovered that a person commuted last week under the name of William Dubers, 65 years old, is a woman. She admitted having masqueraded as a man for 35 years, most of the time gaining her living as a deck hand on lumber barges. William is now in the infirmary of the jail, wearing a skirt, which she finds most awkward.

Holdenville, Ok., Jan. 13.—John Black, a negro, convicted of the murder of J. P. Stephens, will not hang tomorrow, although the ring of the carpenter's hammer has been heard throughout the day in the construction of the scaffold. Everything was ready and Sheriff King was on his way to the penitentiary to bring the condemned man, when the criminal court granted a stay pending an appeal. Black is the negro whom the officers twice spirited away from a mob.

**REPORT TO BEER WILL.**  
Millionaire Failed to Give His Sister What She Wanted.  
St. Louis, Jan. 12.—The charge that the late Louis F. Ewald, millionaire ironmaster, made his will under the influence of Ellen J. Golden, who induced him to leave the bulk of his fortune to her children, is made in a suit filed yesterday by Mrs. Rosa E. Damon, sister of Ewald, who was cut off with \$15,000. Ewald left \$2,134,000 cash.  
Mrs. Damon asks that her brother's will, which was probated both in St. Louis and Louisville, Ky., be set aside and the instruments by which he adopted Mrs. Golden's children declared invalid. Ewald was a native of St. Louis but died in Louisville.

**FIREMEN RESCUE A PARROT**  
Hear Screams from Burning Building, Rush in to Save Woman.  
New York, Jan. 14.—Two firemen who heard screams coming from the upper floor of a burning Brooklyn tenement risked their lives in a dash through the flames, believing that a woman was perishing. Singed and welling over come from smoke, they reached the top floor to find that the cries came from a big, green parrot in a wire cage. By this time escape down the staircase was cut off and the Polly was taken down the long fire ladders to the ground.

**Miserable Church Offering.**  
St. Louis, Mo., Jan. 14.—"You men put into the plate as an offering to God a sum that you wouldn't have the nerve to offer to a Pullman porter."  
Sunday many aristocratic heads were bowed at St. Peter's Episcopal church in smiling acknowledgement, when William Robert Stirling, a Chicago steel manufacturer, capitalist and member of the firm of Peabody, Houghton & Co., made this charge.  
Mr. Stirling was here in the interest of the great layman's missionary interdenominational meeting to convene here next month. In speaking on the subject, "What Men Do not do for Their Church," he stated that woman forms the backbone of the church; that the women's auxiliary of Episcopal church puts the men to shame. He severely criticized the excessive economy practiced by business men in their church offerings, particularly gifts to missions.

**LAWYER ROASTS PRINCESS.**  
Calls Action of Louise Against Baroness Vaughn Undignified.  
Paris, Jan. 13.—The appeal of the Baroness Vaughan from that part of the decision of December 22 in which the court ordered an inventory of her property at Balmcourt was heard today. Decision was reserved for one week.  
In the course of his pleading the attorney for the baroness severely criticized the action of Princess Louise in tying up the appellant's property in Belgium and France, pointing out that her sisters, Clementine and Stephanie, had refused to join in the undignified proceedings of "discussing the extent of their father's liberality towards the baroness."

**MAY JOIN REVOLUTIONISTS.**  
Prisoners Captured at Rama Now Lean Toward Zelaya.  
Washington, Jan. 13.—A telegram received a few days ago from Bluefields, states in effect that the indications are a majority of the prisoners captured at the battle near Rama by the revolutionists will join Esada's army very soon.

**MRS. CLEVELAND'S PENSION.**  
Senator Root Has Bill to Grant Her \$5,000 Yearly.  
Washington, Jan. 13.—A pension of \$5,000 a year is due Mrs. Grover Cleveland, according to precedent, and Senator Root today presented to the senate a bill making the grant. The amount is the same as was allowed to Mrs. McKinley Mrs. Garfield, Mrs. Jackson and Mrs. Tyler, widowed wives of former presidents.

**A Wild Blizzard Raging**  
brings danger, suffering—often death—to thousands, who take colds, coughs and la grippe—that terror of winter and spring. Its danger signals are "sneezed up" nostrils, lower part of nose sore, chills and fever, pain in back of head, and a throat-grinding cough. When grip attacks, as you value your life, don't delay getting Dr. King's New Discovery. "One bottle cured me," writes A. L. Dunn, of Pine Valley, Miss., "after being laid up three weeks with Grip." For sore lungs, Hemorrhages, Coughs, Colds, Whooping Cough, Branchitis, Asthma its supreme, 50c. \$1.00. Guaranteed by G. M. Ramsey.

**ENUMERATORS WELL PAID.**  
From Five to Six Dollars a Day in Sparsely Settled.  
Washington, Jan. 14.—Census enumerators who may be employed in the sparsely settled sections of the west and southwest will be compensated on a per diem basis instead of per capita, the rate of pay ranging from \$5 to \$6 per day.  
This announcement was made today by the census bureau, with the explanation that the compensation on a per capita basis in such parts of the country would be unreasonably low, and to counteract the effect of a circulated statement that the enumerators employed there would be paid on a per capita basis.

**3,000,000 BU. COAL DELAYED.**  
Ice in Ohio River Blocks Boats and Fuel Must Be Shipped South.  
Pittsburg, Pa., Jan. 14.—Full of grinding and crunching ice, the Allegheny river presents today a menace to shipping interests should the cold wave end suddenly. The Ohio river is ice-gorged, flows extending up the Allegheny to Freeport. Navigation has again been abandoned. Coal will be shipped south by rail. It is estimated 3,000,000 bushels of coal lie unmoved in the coal towns drawn up for safety at points in the Pittsburg territory.

**DISPEL FOGS HIS HOBBY.**  
Theory Caused Unhappiness for St. Louisan, Who Fatally Shoots Self.  
St. Louis, Mo., Jan. 13.—Jesse H. Tourville, who recently wrote to the common council of London on a method to dispel the fogs by physics waves, shot himself today at Seventh and Olive streets, the busiest corner in St. Louis. He probably will die.  
Tourville's claims of physics power were one of the causes of the estrangement of his young wife. It was his belief that unseen power forces worked to create strife in his family. He maintained he could lift the pall of smoke from St. Louis by the same forces he would use in lifting the London fog.  
Tourville's shooting of himself was spectacular. Scores of persons saw him draw a revolver from his pocket and press it to his abdomen and fire.

**The Weaver Agency (News Building) Ada, Okla.**

**REAL ESTATE and FIRE INSURANCE**  
**Advice**  
We have recently established in the News Building a REAL ESTATE, INSURANCE and LOAN AGENCY and active and constant attention will be given to all business entrusted to our care. We propose to line up our agency along with the growth and advancement of the city, and we want to make your business acquaintance.  
**Real Estate**  
We make a specialty of PUSHING property listed with our agency. We do not make a note of it on a memorandum, and forget it, but use printers ink to promote its early and sure sale. It pays to advertise. We preach that sort of doctrine and practice it as well. Property listed with us will be advertised, and if there is anything doing at all in the real estate transfers we are busy too. We have at the present date some pretty bargains in Ada stuff which you may see advertised in another column of this issue of the News. If you want to sell list with us today.  
**Insurance**  
The WEAVER FIRE INSURANCE AGENCY was the first established in Ada, and during these nearly 10 years every claim has been promptly adjusted, to the entire satisfaction of the policy holder. This is not a bad record. This is true because only the best and strongest companies have been represented. Among these are: The Royal, New York Underwriters, the Niagara, and the Phenix. These are as strong as the Rock of Gibraltar. PROMPTNESS is the watch-word. You can make no mistake by selecting any of these to carry your risk.  
**Loans**  
We are at present arranging to represent leading loan companies, and expect to be prepared at an early date to take care of applications for loans on city or farm property

## Taft Would Desire Peace

Doesn't Like the Split and  
Advises Republicans to  
Get to Work.

## NOT FIGHTING INSURGENTS

Is Not Paying Any Attention to Votes  
Cast Against Cannon and Will  
Not Withhold Patronage.

Washington, Jan. 13.—Following President Taft's advice, the republicans in congress yesterday to stop quarrelling and get down to the party legislative program as soon as possible, there was concerted evidence today to bring the warring factions together upon some basis of at least a temporary understanding. There seemed to be for the first time this session a spirit of conciliation in the air and decidedly less of the bitterness of the last few weeks.

President Taft let it be known that he still considers all of the insurgents as republicans. Speaker Cannon announced that all republicans would be invited to the caucus on naming the Ballinger-Pinchot committee next week and he hoped that all would attend. Representative Hayes of California, one of the leading insurgents, made trips to the White House today. After the first one he announced that attempts to adjust matters were under way. He then consulted with most of his brethren and reported back to the president.

President Taft declared again today that the test of republicanism will come when action is taken upon the legislative recommendations which he has made in compliance with the party platform.

In his talks with Representative Hayes and other callers today the President said he would not withhold patronage from any republican senator or member of congress because of votes cast against Speaker Cannon, against the rules of the house or against the Payne-Aldrich tariff bill.

If, however, there are any among the insurgents who intend to carry their fight against the speaker and

against the rules to the extent of opposing purely administration and party measures, to which the party is pledged, the president will no longer regard them as republicans but as having arrayed themselves with the other party. Under the circumstances, he said, he would not be justified in recognizing any claim from senators or representatives who would use the very patronage given them as ammunition against the party.

Mr. Taft is said to be satisfied with the way matters are progressing and he has received many personal assurances that most of the so-called insurgents will support the administration measures.

## SHIPS IN STORM.

Atlantic Steamers Suffer With Wild Seas.

New York, Jan. 13.—Wireless reports received here today indicate that the Atlantic steamship line is swept by severe storms.

The worst sufferer from the wild weather, so far as reported, is the Hamburg-American steamer Kaiserin Augusta Victoria, which, according to dispatches, put in port at Plymouth with her port rail torn away for a distance of 50 feet by a wave that caught and threw down a score of passengers who were on deck.

A giant comb, almost threw the ship on her beam ends, but she rose to the attack of the seas and rode out of the rest of the storm without further injury.

Another vessel in the track of the storm is the Cunard liner Lusitania, due here tonight, but reported running through heavy seas and 12 hours late. The St. Louis, of the American line, due on Wednesday evening, is two days late.

## Ice Gorge Destructive.

Lawrence, Kan., Jan. 13.—An ice gorge in the Kansas river reached Lawrence today carrying out a wagon bridge and causing several thousand dollars loss between Leocompton, eleven miles west, and Lawrence. Ice moving this way was tossed forty feet into the air. All traffic between Lawrence and North Lawrence stopped and the electric light plant shut down. The schools of North Lawrence are closed.

## Raising Bills Charge.

Muskogee, Okla., Jan. 13.—W. C. McKey was brought before the federal judge here today on a charge of raising two-dollar bills to twenties. It is alleged that he tried to pass such a bill on a merchant at Tulsa and that when he was arrested he had three such bills. McKey lives in Dallas.

## Pinchot Says Rule at Stake

Government and Resources  
in Danger—Great Moral  
Issue Exists.

## QUESTION AS TO THE RULES

Whether In or Out of Government's  
Service Ex-Forester Will  
Stay in Fight for  
Conservation

Washington, Jan. 1.—"The conservation of natural resources and the concentration of popular government are both at stake. The one needs conservation no less than the other."

This statement epitomizes the formal statement made public tonight by Gifford Pinchot, who was recently removed as Chief of the Forest Service. The former official declared the great moral issue that now faces the country is not the loss of natural resources so much as whether special interests of the people shall rule. The statement in part is as follows:

"At this time I have no comment to make upon recent events. Whether in or out of the Government service I propose to stay in the fight for conservation and equal opportunity. Every movement and measure from whatever source that tends to advance conservation and promote government by men from human welfare, I shall try to help. Every movement and measure that hinders by money and measure, that hinders conservation and promotes government by money for profit, I shall endeavor to oppose."

Mr. Pinchot expresses his profound regret at leaving the Forest Service, out of whose work, he proceeds, grew the conservation movement.

"The great conference of Governors in the White House in May, 1903, led to the appointment of the National conservation commission, whose report gave us a new conception of the value of our natural resources," he declared.

"Together with President Roosevelt's message transmitting its report, the recommendations of the commission furnished a complete statement of the conservation policy, met our needs squarely and prescribed the remedy."

"The classification of the public domain was strongly urged and principles for its use and disposition were laid down. The necessity for preserving the fertility of our soils and developing their agricultural value by drainage and otherwise was covered, and particular attention was drawn to the needs of retaining our prospective lands then in danger of absorption by a foreign syndicate."

Mr. Pinchot then traced the recommendations of the conference, applauding and endorsing them all, and proceeded:

"At this critical period, when the goal was in sight, enemies of conservation in Congress not only succeeded in preventing an appropriation with which to pursue the work but attempted to retard its progress by the Tawney amendment to the last sundry civil bill. Thereupon the days of the National Conservation Commission was stopped."

"The recommendation of the commission still await for action. All wise men will agree that the situation is serious. The Tawney amendment was more than a mistake—it was a deliberate betrayal of the future. The dangers which confront the conservation movement today must be met by positive action in congress. No action will be equivalent to had action and will have the same results."

"Unless congress acts the water powers will pass into the hands of special interests without charge and without limit of time. So with the phosphate deposits on public lands, when the withdrawals which now protect them are removed. So with the enormously valuable coal deposits in Alaska, which the present law would sell for \$10 per acre."

"The danger of legislation is no less dangerous. The special interests may longer be allowed to take what

they choose in all the great property of the people—the great school public lands—or steal homes from men and women who need them. Congress can stop the pillage or congress can let it go on."

"In the absence of proper action two great conservation plans for the future welfare may fail. The first is the control of water powers on navigable streams in the public interest. The second is the construction of the deep water way from the Great Lakes to the Gulf."

"The unanimous opinion in the Mississippi Valley recognizes this waterway as a commercial necessity. It believes, with reason, that the cost which is already officially known, will be trivial when compared with the benefits conferred."

"Transportation facilities create traffic. The failure to develop our waterways, together with adequate terminals and connections by rail, leaves to the railroads a complete monopoly of transportation in the Mississippi Valley."

The former forester then calls upon "every man of good will" to make it clear to his representatives in congress his firm intention to hold personally responsible them for the safeguarding "the rights and property of the people."

"In such action," said Mr. Pinchot "lies the remedy."

"The first immediate great danger is that the water powers will be lost; the second that the coal lands will be lost," the statement concludes.

"But those specific dangers of public loss are merely parts of the great issue between the special interests and the rest of us. That issue is whether this country shall be managed by men for human welfare or by money for profit."

"It is a tremendous moral issue, far greater than many man's personal feelings or political feelings. It lies between the people and their representatives on the one side and the interests and their representatives on the other side, between special privilege and square deal. I repeat that the supreme test is the welfare of the plain people. It is time to apply it."

Government officials tonight declined to make any reply to the statement issued by Mr. Pinchot because of the lateness of the hour at which it was given out that they did not have time to examine it carefully. It is not believed, however, that any formal reply will be made to Mr. Pinchot's defense of his action, inasmuch as he no longer is an official of the government.

## "Love Me, Love My Dog."

Muskogee, Okla., Jan. 14.—Because the proprietor of the Turner hotel would not permit Mrs. Leslie Carter, the actress, to keep her pet dog in her room, she became miffed at the clerk and left the hotel. She spent the night in a second rate hotel on a side street.

Jefferson City, Mo., Jan. 13.—The Missouri supreme court today issued a temporary writ of prohibition against Judge James D. Barnett of the Audrain county circuit court, prohibiting him from proceeding with the trial of a case pending in his court which attacks the legality of the reorganization of the Wabash railroad company as affected at Toledo, Ohio, October 24, 1906. The writ was issued on the ground that Judge Barnett has no jurisdiction to hear and try the case because the securities involved are not in Missouri.

Washington, Jan. 13.—The New Mexico and Arizona statehood bill was completed today by the House Committee on Territories and ordered reported.

## Murders Family Nurse.

Mill Brook, N. Y., Jan. 13.—A young woman known as Sarah Breymer, a nurse in the employ of Mr. and Mrs. Parmer Compton, was strangled to death in bed early today. Frank Schermerhorn, a coachman at the Compton home, to whom suspicion pointed, attempted suicide this afternoon. According to Chief McCable, Schermerhorn, after arranging things to look like a burglary, assaulted the girl, choking her to death. A quantity of silverware was missing.

State Enforcement Officer Does Good

Day's Work and Leaves for Tulsa

The amount of whiskey secured in the raid yesterday afternoon by J. F. Penten state enforcement officer was about 350 gallons which was shipped here in cases, drums and a barrel.

There were 85 cases, 5 drums and one barrel and it required three trips of a transfer wagon to transport the booze to the court house.

At the court house the enforcement officer transferred the cases, drums and barrel to two small trucks which carried the booze to the store room. The trucks were operated by the sheriff and an assistant and a force of five men superintended by Deputy Miles stacked the boxes.

Penten left this morning for Tulsa.

By Feb. 1st we will occupy the Rollow corner. Our store will be strictly up to date. We must dispose of our winter goods before moving. I HARRIS

**REAL ESTATE and FIRE INSURANCE**

**Advice** We have recently established in the News Building a REAL ESTATE, INSURANCE and LOAN AGENCY and active and constant attention will be given to all business entrusted to our care. We propose to line up our agency along with the growth and advancement of the city, and we want to make your business acquaintance.

**Real Estate** We make a specialty of PUSHING property listed with our agency. We do not make a note of it on a memorandum, and forget it, but use printers ink to promote its early and sure sale. It pays to advertise. We preach that sort of doctrine and practice it as well. Property listed with us will be advertised, and if there is anything doing at all in the real estate transfers we are busy too. We have at the present date some pretty bargains in Ada stuff which you may see advertised in another column of this issue of the News. If you want to sell list with us today.

**Insurance** The WEAVER FIRE INSURANCE AGENCY was the first established in Ada, and during these nearly 10 years every claim has been promptly adjusted, to the entire satisfaction of the policy holder. This is not a bad record. This is true because only the best and strongest companies have been represented. Among these are: The Royal, New York Underwriters, the Niagara, and the Phenix. These are as strong as the Rock of Gibraltar. PROMPTNESS is the watch-word. You can make no mistake by selecting any of these to carry your risk.

**Loans** We are at present arranging to represent leading loan companies, and expect to be prepared at an early date to take care of applications for loans on city or farm property
